- HTML 5
- CSS
- Tailwind css
- JavaScript
- TypeScript
- React/Nextjs
- React Native/ Flutter
- Nodejs / Express js
- Supabase / Firebase
- SQL
- Git / Github / Vercel
- AWS / CI / CD

Experience

TUTOR-FINDER

BUEA - CAMEROON

2023 (JUNE) - 2024 (FEB)

As the team lead, I guided a team of nine developers in creating a fully functional web application with both front-end and back-end capabilities. Key features included an AI-powered tutor recommendation system that matched students with tutors based on their preferences and learning styles.

START-WISE Inc.

BUEA - CAMEROON

2023 (AUG) - 2025 (JUNE)

Developed the web app's front-end with a team of five, integrated it with backend APIs for full functionality, and built a chatbot to guide users and provide career orientation on the mentorship platform.

Education

• university of Buea

I began my Computer Science degree in 2023 and will graduate in 2026.

Certificates

- CS50'S Introduction to Computer Science
- FreeCodeCamp Certification (JavaScript, API's, Data Structures)
